Sanaky EHC (HOT-COLD-NORMAL) RO Water Purifier

Price : 44500.00 /-48000.00

10 Liters Warm, 2 Liters Hot & 2 Liters Cold Reservoir
Ensures constant availability of purified water.

100 GPD Production Capacity (384 LPD)
Equipped with powerful RO membrane technology from the USA.

Proven Mineral RO & TDS Controlling Technology
Offers additional safety, sourced from Vietnam.

Five-Stage, Compressor-Based Cooling System
Features front plate and top cover made of durable ABS material.

Anti-Fungal Glass Front Cover
Easy to remove and clean.

Smart Control for Optimal Performance

Dimensions: 95 x 33.4 x 42.3 cm

Key Features of Sanaky EHC (HOT-COLD-NORMAL) RO Water Purifier:

- **Robust 5-Stage Filtration System:** Employs a comprehensive purification process:
 1. **Sediment Filter:** Effectively removes larger suspended particles like dust, sand, silt, and rust.
 2. **Granular Activated Carbon (GAC) Filter:** Adsorbs chlorine, volatile organic compounds (VOCs), and other impurities that cause unpleasant taste and odor.
 3. **Block Carbon Filter:** Provides further filtration, removing residual chlorine and fine sediments for enhanced water clarity and protection of the RO membrane.

4. **High-Capacity 100 GPD Reverse Osmosis (RO) Membrane:** The core of the system, this high-quality membrane efficiently removes dissolved solids (TDS), heavy metals (like lead, mercury, arsenic), bacteria, viruses, and cysts at a rate of up to 100 gallons of purified water per day. This higher capacity ensures a faster refill rate and ample purified water for larger households or small offices.
 5. **Post Carbon Filter:** Polishes the water, removing any lingering tastes or odors that might remain after the RO process, resulting in fresh and pure drinking water.
- **Hot, Cold, and Warm Water Dispensing:** Offers the ultimate convenience with instant access to three distinct water temperatures:
 - **Hot Water:** Ideal for making tea, coffee, instant soups, and other hot beverages quickly.
 - **Cold Water:** Provides refreshing chilled water on demand, especially desirable during warmer weather.
 - **Warm Water:** A comfortable temperature for general drinking or preparing baby formula.
 - **High 100 GPD Capacity:** Delivers a substantial volume of purified water daily, suitable for larger families, small offices, or individuals with higher water consumption needs. This ensures a faster recovery time for the storage tanks after dispensing water.
 - **Standing Design:** A floor-standing unit that offers a significant storage capacity for both purified and hot/cold water, making it a self-contained hydration station.
 - **Multiple Internal Tanks:** Features separate tanks to maintain the temperature of hot and cold water, ensuring consistent availability.
 - **User-Friendly Operation:** Typically equipped with simple and intuitive controls for selecting the desired water temperature.
 - **Safety Features:** Often includes safety locks on the hot water dispenser to prevent accidental scalding, especially important in households with children.
 - **Durable Construction:** Built with high-quality materials to ensure longevity and reliable performance.
 - **Relatively Low Maintenance:** While filter replacements are necessary, the system is designed for ease of maintenance.

Benefits of Sanaky EHC (HOT-COLD-NORMAL) RO Water Purifier:

- **Superior Water Purity:** The 5-stage filtration process, highlighted by the high-performance 100 GPD RO membrane, guarantees the removal of a wide spectrum of contaminants, providing exceptionally clean and safe drinking water.
- **Enhanced Hydration Convenience:** Having instant access to hot, cold,

and warm water eliminates the need for separate appliances like kettles and water coolers, saving time and counter space.

- **Ideal for Larger Households or Small Offices:** The 100 GPD capacity ensures a sufficient supply of purified water to meet the demands of multiple users.
- **Improved Taste and Odor:** The carbon filters effectively remove chlorine and other substances that can negatively impact the taste and smell of tap water.
- **Healthier Lifestyle:** By removing harmful contaminants, the purifier promotes better health and well-being.
- **Cost-Effective in the Long Run:** Reduces the reliance on expensive and environmentally unfriendly bottled water.
- **Space-Saving Solution:** The standing design integrates purification and temperature control into a single unit.
- **Peace of Mind:** Provides a reliable and consistent source of high-quality drinking water for your family or workplace.
- **Convenient for Various Needs:** From making a quick cup of tea to enjoying a refreshing glass of chilled water, this purifier caters to diverse hydration preferences.

Why Choose Aquafit Technologies for Your Domestic Water Purifier Needs

When it comes to selecting a domestic water purifier, Aquafit Technologies stands out as a top choice for several compelling reasons. Here's why our clients prefer us over others:

1. **Economical Pricing:** We offer high-quality water purifiers at competitive prices, ensuring that you get the best value for your money without compromising on quality.
2. **Rapid Service:** Our dedicated team provides quick and efficient service, addressing any issues or queries promptly to ensure your purifier remains in optimal condition.
3. **Three Years of Free Servicing:** Enjoy peace of mind with our three-year free servicing offer, which covers regular maintenance and repairs, reducing long-term costs.
4. **EMI Opportunities:** To make our products more accessible, we offer EMI options, allowing you to spread the cost of your purchase over manageable monthly payments.
5. **Extensive Service Network:** With over fifty service centers across Bangladesh,

we ensure that help is always close by, no matter where you are.

6. Affordable Filter Parts: We provide filter parts at the lowest prices, making it economical to maintain your purifier and keep it running efficiently.

7. 24/7 Service Centers: Our service centers operate around the clock, offering support whenever you need it, including evenings and weekends.

8. 100% Return Policy: We stand by the quality of our products with a 100% return policy on any default items, ensuring complete customer satisfaction.

9. Client Satisfaction First: At Aquafit Technologies, we prioritize client satisfaction above all else, striving to exceed your expectations with every interaction.

10. Flexible Payment Options: We accept payments through more than 20 bank cards and mobile banking services, making transactions convenient and hassle-free.

Choosing Aquafit Technologies means opting for quality, reliability, and exceptional customer service. Experience the difference with our top-rated domestic water purifiers and join the many satisfied clients who trust us for their water purification needs.
